

**YOUR BRIDGE TO  
CLINICAL TRIALS  
IN EUROPE**

**August Research is an American-owned, boutique CRO focused on clinical trial operations across Europe. From Spain to Georgia, we are your 'high-touch' partner for successful clinical trials in Europe.**

**Experience:** August Research is led by a team of clinical trial professionals who have been working together for more than 15 years. We have a broad experience across many therapeutic areas with a majority of our work in Phase II and III trials.

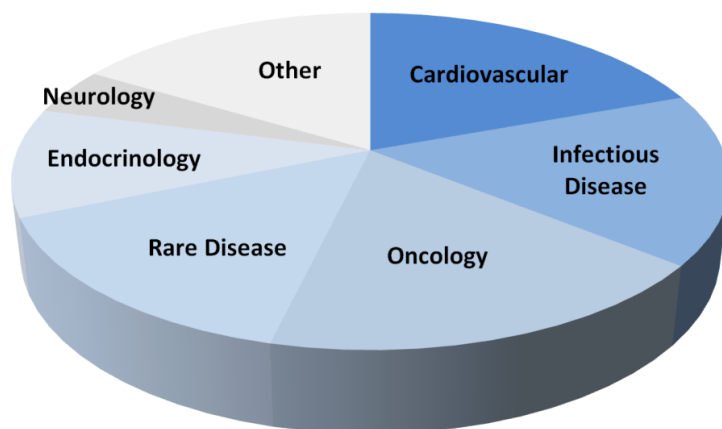

**Stability:** Low turnover rate in our project teams, with less than 5% annually. Our continuity in project teams is a key success factor for our clinical trial results.

**Flexibility:** August Research is an ideal partner for small and medium-sized sponsors as we are flexible in our service offerings and contracting models. We can work with our sponsor's technology or bring our own, cost-efficient systems.

**August Research provides all 'in-country' clinical trial services including:**

- Feasibilities and study strategy consulting
- Regulatory and ethics submissions
- Site and investigator contract preparations/negotiations
- Project Management
- Routine monitoring
- Site and investigator payments
- Insourcing/FSP projects
- EU Legal representative services
- Global Pharmacovigilance

Experience, by therapeutic area
